Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

This communication is in response to applicant's amendment filed on 11/13/2006.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-20 are rejected under 35 U.S.C. 102(b) as being anticipated Martinez et al (US 6048118) ("Martinez").

Re claims 1-20: Carlson teaches method, system and computer program product for check settlement, the method comprising: receiving, by a merchant, a check from a customer; entering, by the merchant, check settlement information as digital data stored in computer memory; printing, at a point of sale, the check settlement information on the check; and depositing, by the merchant, the check in the merchant's depository bank (see at least col. 1, lines 19-67).

Claims 1-5, 7-12 and 14-19 are rejected under 35 U.S.C. 102(b) as being anticipated by Carlson et al (US 5053607) ("Carlson").

Re claims 1-5, 7-12 and 14-19: Carlson teaches method, system and computer program product for check settlement, the method comprising: receiving, by a merchant, a check from a customer (col. 2, lines 24-34); entering, by the merchant, check settlement information as digital data

stored in computer memory (col. 15, lines 22-67, col. 10, lines 7-53); printing, at a point of sale, the check settlement information on the check (col. 10, lines 7-53); and depositing, by the merchant, the check in the merchant's depository bank (col. 15, lines 22-67).

Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

The factual inquiries set forth in *Graham v. John Deere Co.*, 383 U.S. 1, 148 USPQ 459 (1966), that are applied for establishing a background for determining obviousness under 35 U.S.C. 103(a) are summarized as follows:

1. Determining the scope and contents of the prior art.
2. Ascertaining the differences between the prior art and the claims at issue.
3. Resolving the level of ordinary skill in the pertinent art.
4. Considering objective evidence present in the application indicating obviousness or nonobviousness.

Claims 6, 13 and 20 are rejected under 35 U.S.C. 103(a) as being unpatentable over Carlson.

Re claims 6, 13 and 20: Carlson does not explicitly teach MICR font, and printing the check settlement information comprises printing the check settlement information in magnetic ink.

Carlson teaches printing on the check such as endorsement, date(s), amount, etc, in conformance

with U.S Federal reserve Bank System (col. 10, lines 47-53). It would have been obvious to one of ordinary skill in the art at the time of the invention to include printing in magnetic ink. One would have been motivated to do this in order eliminate secondary check handling operation. (Motivation is clearly stated in the Martinez reference, supra).

Conclusion

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
